

The William H. Miner Agricultural Research Institute

Equine Services

Mare Station

Working closely with our veterinarian, the stallion manager, and mare owner, we'll coordinate all the parties involved to get the mare bred at the right time with fresh-cooled semen. All pre- and post-breeding management and care is done right here to hopefully send mares home safely in foal.

Stallion Station

We can train your stallion to the phantom mount, collect semen, evaluate it, and ship it to contracted mare owners. Stabling available for the breeding season or on an as-needed basis. Semen freezing is also available.

Horse Training

Helping horse owners start their horses right is the goal of our training program. Specializing in establishing a solid foundation of the basics, we've worked with many breeds and launched horses' careers in a number of disciplines. Owners are involved in much of the training process, from evaluation of goals to learning to work together with their horse.

Learn more about Miner Institute's equine program by signing up for our free equine newsletter, *The Stable Sheet*. View it online at whminer.org/stablesheet.html.

or contact Equine Manager Karen Lassell at lassell@whminer.com or 518-846-7121, ext. 120.

Stallion Services

As a full-service stallion station, Miner is dedicated to work with you and your veterinarian to get your mare bred with the least amount of hassle and drain on your wallet. Low fees and short-notice collections are our way of saying “thank you” for supporting the equine program at Miner. In no way does affordability mean less quality; you will receive top-notch service!

Townshend Rob The Wave

A best-kept secret is on lease to Miner Institute from Nancy Caisse’s farm in Bolton, MA. “Robbie” is by one of the nation’s top sires, Tug Hill Whamunion and out of a Townshend Farm foundation-bred mare. A beautiful bay stallion, Robbie is solid in his work ethic and easy to be around in the barn. Shown by Townshend Farm as a successful hunter pleasure horse in his junior years, as a carriage horse with Nancy, and in open competition at county fairs with student riders, Robbie is ready to make his mark in the breeding shed! His two fillies are correct, personable and all Morgan!

Canon

Paradise Morgans aimed to produce classic Morgan type with keen attention to pedigree details. Those goals have been brought to life by Canon who is just beginning his breeding career; his first colt and filly, out of very different mares, are representation of the mark he’s going to make upon the breed. The only foal out of the renowned park harness mare, Pastorale and by the incomparable UVM Springfield, Canon is a horse for the ages.

Upcoming Events:
EquiDay: March 2017
Museum Weekend: June 3-4, 2017
Clinton County Fair: July 2017
Youth EquiDay: November 4, 2017
