

The William H. Miner Agricultural Research Institute

Equine Services

Mare Station

Working closely with our veterinarian, the stallion manager, and mare owner, we'll coordinate all the parties involved to get the mare bred at the right time with fresh-cooled semen. All pre- and post-breeding management and care is done right here to hopefully send mares home safely in foal.

Stallion Station

We can train your stallion to the phantom mount, collect semen, evaluate it, and ship it to contracted mare owners. Stabling available for the breeding season or on an as-needed basis. Semen freezing is also available.

Sale Horses

Miner Institute maintains a herd of Morgan Horses as the core of the educational program. All horses owned by the Institute are donated, home bred, or the result of a donated stallion service. Our goal is to raise a few foals each year to carry the Heart's Delight Farm registered prefix of "HD." All HD-prefixed horses are NYSMHS Futurity Nominated or Alumnae. As well as our own horses, we maintain free leases on breeding stock to continue to improve the bloodlines and quality in our herd. There is usually a selection of horses to choose from on the Sales List page of the equine program's web page.

or contact Equine Manager Karen Lassell at lassell@whminer.com or 518-846-7121, ext. 120.

Stallion Services

As a full-service stallion station, Miner is dedicated to work with you and your veterinarian to get your mare bred with the least amount of hassle and drain on your wallet. Low fees and short-notice collections are our way of saying “thank you” for supporting the equine program at Miner. In no way does affordability mean less quality; you will receive top-notch service!

Canon

Paradise Morgans aimed to produce classic Morgan type through a keen attention to pedigree details. These goals are embodied in the stallion, Canon (UVM Springfield x Pastorale). Canon has consistently stamped his offspring with athleticism, clear Morgan type, and exceptional temperaments out of a variety of different mares. Currently standing at and leased to Miner Institute.

Privilege

It is a “Privilege” to stand the 2014 World Champion Western Pleasure Horse at Miner Institute. By UVM Springfield and out of Nemours Celestial Lady, “Slick” is every bit the handsome, typey, trainable athlete that one would expect from this pedigree and he’s stamping that on his get. Privilege is standing at Miner Institute’s stallion station for Paradise Morgans. Many regional and national titles were his over the years and he’ll do the same for your mare.

Educational Opportunities

Summer Experience in Equine Management

13-week paid internship for college undergraduates seeking careers in the equine industry. Students learn all aspects of managing a stable, breeding operation, and the basics of training horses. Competitive application process with annual deadline of February 15. Summer Experience in Equine Management alumni have gone on to careers in management, training, breeding, veterinary medicine, academia, and others.

Year-Long Equine Internship

12-month paid internship program for college graduates as assistant to the Equine Manager.

Seminars, Workshops and Clinics

EquiDay – annual spring day long equine symposium on horse topics

Youth EquiDay – annual fall youth hands-on horse skills clinic

Reproductive workshops – annual collaboration with the UVM Morgan Horse Farm and specialized workshops for continuing education.
